

Ideation Phase

Define the Problem Statements

Date	15 August 2026
Project Name	Automated Network Request Management in ServiceNow
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Project-Specific Problem Statements:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a user who needs a network service	submit a network request quickly and track its status	the request process can be manual, unclear, and time-consuming	requests may be handled through scattered communication without a centralized workflow	frustrated and uncertain about the progress of my request
PS-2	a network administrator	receive, prioritize, assign, and complete network requests efficiently	requests can be difficult to track and manage consistently	there may be limited automation, visibility, and centralized request handling	overloaded and concerned about delays or missed requests
